

RT-H104

Hot Melt Adhesive for Waterproof Industry

Product Description

RT-H104 is widely used for tunnel waterproof material, highway and tunnel construction.

Eco-friendly material

Strong permeability

Construction efficiency

Typical Physical Properties

Product	Hot Melt Adhesive	
175° Consistence (CPS)	2000-2500	
Softening Point (°C)	105 ± 5 °C	(around 221 ° F)

Note: The following technical information and data should be considered representative or typical only, and should not be used for specification purposes.

Applications recommended :

The polymer self-adhesive waterproof rolling material made of our hot melt pressure sensitive adhesive can be applied to the waterproof and impermeable engineering of building basement, cavern, tunnel, subway and municipal construction, etc.

HDPE waterproof coil adhesive

TPO waterproof coil adhesive
